(www.topekahorseshoe.com)

The Topeka Horseshoe Association has wanted to build a 12-court facility for a very long time. We have decided that we are no longer going to wait, but rather go ahead and try to secure enough pledges / commitments to complete the building by year end. We have the support of the Shawnee County Parks and Recreation to build a facility at the Major Palm Park which is located just east of Burlingame Road on 37th street & just north of 470 & Hwy 75. All donations will be used for the indoor facility. Our club is NOT a 501 (c3). Therefore, if you want your donation to be tax deductible, the donation will need to go to: Parks For All Foundation / Horseshoe Account. Naming rights (up to eight names per court / plaque) will be on a first come first pledge / commitment, at the following sponsorship levels.

<ul style="list-style-type: none"> Building Name Rights + Plaque Contributions of \$50,000+will have the sponsor's name permanently displayed on the outside of the building. 	Earl Romine & Roy Reese

The facility will be a metal building 130x60x14 at a cost of approx. \$250,000. In addition, there will be costs associated with connecting the building to utilities, city and county costs / fees that we will be required to meet before construction can start. We have Falk Architect working on the project and are working on drawings and selecting a general contractor. We are also working on obtaining estimates for the building such as plumbing, HVAC costs, a site plan, city permits etc.
